

King County Energy Efficiency Training

King County

ENERGY

PROGRAM

dnr-web.metrokc.gov/conserve

Training is **FREE**

Target Audience:

Project managers, Operations and maintenance staff, and others who work with King County facilities and infrastructure.

For more information:

(206) 477-4544

or

david.broustis@kingcounty.gov

King County has ambitious energy reduction goals, including reducing energy use by 15% by 2015, and 20% by 2020. We are making good progress — we have reduced our energy use by over 12% since 2007.

Attend this training to learn how you can help the county make additional progress toward our energy reduction goals.

Energy and Water Utility Programs and Incentives

Thursday, December 4, 2014

10:30 A.M.— Noon

King Street Center, 8th floor conference room

Our local utilities have rebate dollars available for almost any size and type of energy or water conservation project – including lighting, motors, fans, boilers, furnaces, mechanical units, toilets and other plumbing fixtures and technologies.

Come learn about:

- The most efficient types of equipment to install in facilities
- Types of equipment that are cost effective to install
- The various rebate programs and incentive levels
- The necessary processes for generating a rebate contract
- How to obtain assistance for your project(s)
